

**UCN physics, fundamental properties of the neutron**

**Neutron gamma irradiation method to measure neutron inelastic scattering cross section using very cold neutrons**

*Arzumanov A., Bondarenko L., Chernyavsky S., Geltenbort P., Morozov V., Panin Yu.* ..... 8

**The neutron EDM project at PSI**

*Ban G., Lefort T., Naviliat-Cuncic O., Bodek K., Kistryn S., Kuźniak M., Zejma J., Khomutov N., Sabirov B.M., Knowles P., Rebetz M., Weis A., Plonka C., Rogel G., Quéméner G., Rebreyend D., Roccia S., Tur M., Daum M., Henneck R., Heule S., Kasprzak M., Kirch K., Knecht A., Mchedlishvili A., Pichlmaier A., Zsigmond G.*... 14

**Project for precise neutron lifetime measurement by the method of ultracold neutron (UCN) storage with registration of inelastic scattered neutrons**

*Geltenbort P., Nesvizhevsky V., Arzumanov S., Bondarenko L., Morozov V., Panin Yu., Strepetov A.* ..... 17

**The Berry phase in neutron physics**

*Ignatovich V.K.* ..... 25

**Sign of the singlet length of neutron scattering on the proton, neutron radiative capture by the proton and problem of the virtual level of the (np)-system**

*Lyuboshitz V.L., Lyuboshitz V.V.* ..... 37

**On neutron electromagnetic constants derived from neutron scattering by  $^{208}\text{Pb}$**

*Mitsyna L.V., Nikolenko V.G., Popov A.B., Samosvat G.S.* ..... 44

**GRANIT project: a trap for gravitational quantum states of UCN**

*Nesvizhevsky V.V., Petukhov A.K., Börner H.G., Soldner T., Schmidt-Wellenburg P., Kreuz M., Pignol G., Protasov K.V., Rebreyend D., Vezzu F., Forest D., Ganau P., Mackowski J.M., Michel C., Montorio J.L., Morgado N., Pinard L., Remillieux A., Gagariski A.M., Petrov G.A., Kusmina A.M., Strelkov A.V., Abele H., Baeßler S., Voronin A.Yu.* ..... 50

**New experimental method to determine the averaged squared radius of the nuclei in the process of the direct and isomer fission**

*Pantelev Ts., Oprea C.D., Oprea A.I.* ..... 63

**Comments to the problem of experimental determination of the neutron-electron scattering length and its theoretical interpretation**

*Popov A.B., Tretyakova T.Yu.* ..... 66

<b>A source of ultra-cold neutrons for the gravitational spectrometer "GRANIT"</b> <i>Schmidt-Wellenburg P., Geltenbort P., Nesvizhevsky V.V., Plonka C., Soldner T., Vezzu F., Zimmer O.</i> .....	75
--	----

## Nuclear structure

<b><sup>95</sup>Mo neutron resonances measured with the DANCE array</b> <i>Krtička M., Aqaanluusan U., Becker J.A., Bečvář F., Bredeweg T.A., Haight R.C., Jandel M., Mitchell G.E., O'Donnell J.M., Parker W., Reifarh R., Rundberg R.S., Sharapov E.I., Sheets S.A., Ullmann J.L., Vieira D.J., Wilhelmy J.B., Wouters J.M., Wu C.Y.</i> .....	84
---	----

<b>Approximation of sums of experimental radiative strength functions of dipole gamma-transitions in the region <math>E_\gamma \approx B_n</math> for the atomic masses <math>40 \leq A \leq 200</math></b> <i>Sukhovoj A.M., Furman W.I., Khitrov V.A.</i> .....	92
--	----

<b>Problems of the experimental determination of parameters of nucleus and applicability of the Bohr-Mottelson hypothesis</b> <i>Sukhovoj A.M., Khitrov V.A.</i> .....	108
---	-----

<b>Gamma decay of the compound state and change of structure of the <sup>124</sup>Te excited levels</b> <i>Sukhovoj A.M., Khitrov V.A.</i> .....	113
---	-----

<b>Calculation of the total gamma-spectra of the fast neutrons capture in the isotopes <sup>117,119</sup>Sn for the different parameters of cascade gamma-decay</b> <i>Sukhovoj A.M., Khitrov V.A.</i> .....	126
---	-----

<b>Reanalysis of the process of the cascade gamma decay of <sup>198</sup>Au compound state</b> <i>Sukhovoj A.M., Khitrov V.A., Crawford B.E., Stephenson S.L.</i> .....	134
--	-----

## Reactions with charged particles. Nuclear data

<b>Differential and angle-integrated cross section measurement for the <sup>64</sup>Zn(<i>n</i>, <math>\alpha</math>)<sup>61</sup>Ni reaction at 2.54, 4.00 and 5.50 MeV</b> <i>Gledenov Yu.M., Sedysheva M.V., Khuukhenkhuu G., Szalanski P. J., Zhang Jiaguo, Cao Rongtai, Guo Li-an, Chen Jinxiang, Wang Jianyong, Zhang Guohui</i> .....	147
---	-----

<b>Investigation of the resonance structure of neutron cross sections of Mo, Ho, Ta, W at the 50 m flight path of the MMF (INR, Troitsk)</b> <i>Grigoriev Yu.V., Pavlova O.N., Zhuravlev B.V., Alekseev A.A., Berlev A.I., Koptelov E.A., Mezentseva Zh.V.</i> .....	151
---	-----

<b>Statistical model analysis for (<i>n</i>, <math>\alpha</math>) reaction cross sections</b> <i>Khuukhenkhuu G., Gledenov Yu.M., Sedysheva M.V., Odsuren M., Badamsambu J.</i> .....	157
--	-----

<b>Complete files of neutron- and proton-induced nuclear data up to 1 GeV for <math>^{208}\text{Pb}</math>, <math>^{209}\text{Bi}</math>, <math>^{235}\text{U}</math> and <math>^{238}\text{U}</math> targets</b> <i>Martirosyan J.M., Grudzevich O.T., Yavshits S.G.</i> .....	163
<b><math>p</math>- and <math>n</math>-induced fission of <math>^{232}\text{Th}</math> and <math>^{238}\text{U}</math> up to 200 MeV</b> <i>Maslov V.M.</i> .....	171
<b>Total and partial cross-sections of Nb in the energy region from 10 eV to 200 keV</b> <i>Mezentseva Zh.V., Grigoriev Yu.V., Sinitza V.V., Faikov-Stanczyk H.</i> .....	185
<b>Search of <math>^{12}\text{Be}</math> cluster states in the charge exchange reaction for carbon</b> <i>Skorkin V.M.</i> .....	198
<b>Nuclear Analytical Methods in the Life Science</b>	
<b>Application of an electron linac of the IREN facility for multielemental photon activation analysis and production of radionuclides</b> <i>Balynnyam N., Belov A.G., Gambold G., Gangrskii Yu.P., Gerbish Sh., Maslov O.D., Shvetsov V.N.</i> .....	203
<b>Current status and future needs of nuclear analytical techniques and their applications: A review of IAEA consultants' meeting</b> <i>Frontasyeva M.V.</i> .....	213
<b>Bremsstrahlung emission from a thick target</b> <i>Khai N.T., Thiep T.D., An T.T., Vinh N.T., Belov A.G., Maslov O.D.</i> .....	218
<b>Air pollution studies in Opole region, Poland, using the moss biomonitoring technique and neutron activation analysis</b> <i>Korzekwa S., Pankratova Yu.S., Frontasyeva M.V.</i> .....	226
<b>Temporal variations of elemental content in atmospheric aerosol in Bratislava, Slovakia</b> <i>Meresova J., Florek M., Frontasyeva M.V., Pavlov S.S., Holy K., Sykora I.</i> .....	234
<b>Potential of the <i>Tamarindus Indica</i> leaves as biomonitors for atmospheric contamination in Vietnam</b> <i>Trinh T.T. My, Frontasyeva M.V., Nguyen Hong Nhung</i> .....	240
<b>Fission</b>	
<b>Experimental setup and data processing in studying of the reaction <math>^{235}\text{U}(n_{th}, f)</math> at the IBR-2 beam</b> <i>Alexandrov A.A., Alexandrova I.A., Borzakov S.B., Voronov Yu.N., Denisov S.V., Efimov G.L., Kamanin D.V., Kopatch Yu.N., Kuznetsova E.A., Lavrova Yu.E., Mitrofanov S.V., Panteleev Ts., Pyatkov Yu.V., Salamatin V.S., Tsurin I.P., Tyukavkin A.N., Zhuchko V.E.</i> .....	248
<b>The theory of the T-odd correlations in ternary fission</b> <i>Bunakov V.E., Kadmsky S.G.</i> .....	256

<b>The estimation of scission neutron parameters from <math>n - n</math> angular correlations</b>	
<i>Guseva I.S., Gagarski A.M., Petrov G.A., Sokolov V.E., Val'ski G.V.</i>	266
<b>Study of the multi-cluster decays in the neutron induced fission of <math>^{235}\text{U}</math></b>	
<i>Kamanin D.V., Kopach Yu.N., Pyatkov Yu. V., Alezandrov A.A., Borzakov S.B., Lavrova J.E., Pantelev Ts., Tyukavkin A.N.</i>	274
<b>Collinear multicluster decays of <math>\text{Pu}^*</math> isotopes</b>	
<i>Pyatkov Yu. V. for HENDES and FOBOS collaborations.</i>	281
<b>Investigations of the angular dependence of neutron-neutron coincidences from <math>^{235}\text{U}</math> fission induced by thermal neutrons and spontaneous fission of <math>^{252}\text{Cf}</math></b>	
<i>Sokolov V.E., Petrov G.A., Gagarski A.M., Krinitsin D.O., Nikolaev D.V., Val'sky G.V., Petrova V.I., Zavarukhina T.A.</i>	288
<b>Violations of fundamental symmetries</b>	
<b>Multilevel approach in the evaluation of the asymmetry effects on <math>(n, p)</math> reaction for <math>^{35}\text{Cl}</math> and <math>^{14}\text{N}</math> nuclei</b>	
<i>Oprea A.I., Oprea C., Gledenov Yu. M., Sedyshev P.V., Szalanski P.J.</i>	296
<b>Search for PT-noninvariant effect in neutron induced gamma transitions</b>	
<i>Nikolenko V.G., Okunev I.S., Parzhitski S.S., <span style="border: 1px solid black; padding: 2px;">Popov Yu.P.</span>, Sinyakov A.V., Tchuwl'sky Yu.M.</i>	304
<b>Reports received after deadline</b>	
<b>Factor analysis of neutron data</b>	
<i>Oprea C., Oprea A.I.</i>	320
<b>Experiment for the measurement of the neutron-electron scattering length in liquid Pb at the TS-3000K thermostat from IBR-2 reactor</b>	
<i>Oprea C., Oprea A.I., Samosvat G.S., Nikolenko V.G., Savostin V.V., Morozov V.M., Kozlov Zh.A.</i>	328
<b>"Zero" experiment and final result of the measurements of the p-odd asymmetry in the <math>^6\text{Li}(n, \alpha)^3\text{H}</math> reaction</b>	
<i>Vesna V.A., Gledenov Yu.M., Nesvizhevsky V.V., Petukhov A.K., Sedyshev P.V., Soldner T., Shulgina E.V., Zimmer O.</i>	332
